ANNOUNCING OUR NEW MASTER OF SCIENCE IN ATHLETIC TRAINING

The College of Health Professions at Sacred Heart University is introducing its newest graduate program: Master of Science in Athletic Training (MSAT). This is the only graduate program of its kind in the state of Connecticut.

The Athletic Training program at SHU is committed to providing students with the hands-on clinical experiences and classroom knowledge they need to evaluate, protect and care for all athletes at any level. The MSAT will offer students the chance to learn and interact with faculty in areas such as athletic training, exercise science, strength and conditioning and professional development. After just five semesters, students will be prepared for a career as an Athletic Trainer, advanced degree programs or residencies in athletic training. Interested applicants are able to apply now online through ATCAS, the centralized application service for athletic training programs.
PROGRAM OVERVIEW

• The program consists of traditional coursework, problem-based learning practicums and clinical experiences that provide students with not only the knowledge base necessary to work as an athletic trainer, but also the ability to pursue other allied health professions.

• Clinical rotation will take place at sites such as, but not limited to, SHU’s Division 1 athletics, University of Bridgeport, Orthopaedic Sports Medicine Center and high schools throughout Southern Connecticut.

• Our graduate program in Athletic Training will provide you with the necessary knowledge and experience to guide you to a diverse industry that holds careers in professional sports, hospitals, colleges or universities and many more.
