3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

4. Please provide any additional information about the information provided above:

Students apply to the Bachelor's - Master of Arts in Teaching Dual Degree Program as incoming freshmen and are admitted directly into the graduate program at the same time as their admission as undergraduate students. Dual degree students are guaranteed a place in the Master of Arts in Teaching program provided they continue, as undergraduate students, to meet program-specific criteria to progress into enrollment in the graduate program. Dual degree students, therefore, have a space reserved for them in the graduate program beginning in their first year, with clear criteria and achievements required to progress into the graduate program.

2.8

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

3

4. Please provide any additional information about the information provided above:

Dual degree students must meet program-specific guidelines to progress through the dual degree program and enroll in the MAT program. Dual degree students must meet the required 2.8 undergraduate cumulative GPA, as well as grade of C or better in all undergraduate Interdisciplinary Studies courses, by January 15 of the sophomore year to begin taking undergraduate education courses in order to progress to enrollment in the MAT program. Successful completion of the bachelor's degree with a minimum cumulative GPA of 2.8 or higher to matriculate into the MAT program. Effective July 1, 2016 a satisfactory score on the Praxis Core Academic Skills exam is no longer required for admission to teacher education programs, however Sacred Heart still requires all applicants to submit Praxis Core scores or equivalent test for a waiver. Each person's results shall be used as a diagnostic tool for the purposes of providing any necessary remedial instruction to such person while enrolled in a teacher education program.? Effective July 1, 2024, the Connecticut State Board of Education will no longer require a successful score on the edTPA for program completion of a Connecticut educator preparation program provider (EPP).

## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2024-25. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Please provide any additional information about or descriptions of the supervised clinical experiences:

The supervised clinical experience is designed to prepare candidates to become classroom-ready professionals who will be approved for Initial Teacher Certification in Connecticut. Aligned to \*national and state standards, the experience targets Isabelle Farrington College of Education & Human Development's (FCEHD's) final objectives to prepare highly qualified teachers who have the knowledge, skills, and dispositions to integrate content and pedagogy to effectively meet the needs of all learners. To be recommended for teacher certification, a candidate must successfully complete the supervised clinical experience requirement. Teacher candidates complete a minimum of 12 weeks of student teaching (60 school calendar days). A school calendar day is defined as an instructional day listed on the official school district calendar. Teacher candidates follow the school district calendar rather than Sacred Heart University (SHU) calendars. Teacher candidates do not assume any intern responsibilities during their student teaching weeks.

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Sacred Heart University requires that candidates take course: Introduction to Exceptionalities, which focuses on identification of students with exceptional needs as well as methods of meeting their educational needs in regular and special classroom settings. Exceptionalities studies include all areas identified by national and state mandates. There is a 5-hour service-learning requirement in a PK-12 educational setting. Teacher candidates are also required to take course: Culturally Sustaining Education, which requires teacher candidates to reflect on their identities, inquire into the experience of others, and examine individual, interpersonal, institutional, and systemic barriers that limit educational opportunities and outcomes for many students. The course draws on history, policy, theory, and praxis to enable teacher candidates to draw from students' cultural, religious, family, intellectual, and personal assets in strategies that effectively support all students' personal and academic success in a diverse society. The Isabelle Farrington College

of Education & Human Development ensures that all candidates complete field hours in diverse public school districts in order to prepare them to teach students of different backgrounds and abilities.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request.  [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes

No

- b. use technology effectively to collect data to improve teaching and learning

Yes

No

- c. use technology effectively to manage data to improve teaching and learning

Yes

No

- d. use technology effectively to analyze data to improve teaching and learning

Yes

No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Our teacher education program uses and integrates the ISTE Standards for Educators which provides a framework for educators to integrate technology effectively into their practice. An overview of the standards and how we integrate them is as follows: ISTE Educator Standard 1: Learner: The program ensures that teachers-in-training are continuous learners, adept at using technology to explore new ideas and enhance their professional growth. Evidence includes reflections, portfolios, or projects demonstrating how candidates have used technology to engage in self-directed learning. ISTE Educator Standard 2: Leader: Teachers are prepared to model and promote digital leadership within their educational communities. Evidence includes examples of candidates leading technology integration initiatives, facilitating professional development workshops, or serving as mentors to peers. ISTE Educator Standard 3: Citizen: Teachers are equipped to model digital citizenship and responsibility, both for themselves and their students. Evidence could include examples of candidates promoting safe, ethical, and responsible technology use within their classrooms and school communities. ISTE Educator Standard 4: Collaborator: Teacher candidates develop skills to collaborate effectively with colleagues, students, and parents using digital tools and resources. Evidence includes candidates collaborating on technology-enhanced projects, participating in online professional learning communities, or communicating with parents using digital platforms. ISTE Educator Standard 5: Designer: Teachers learn to design authentic, learner-centered learning experiences that integrate technology effectively. Evidence includes lesson plans, unit designs, or project-based learning experiences that demonstrate candidates' ability to design technology-rich learning environments. ISTE Educator Standard 6: Facilitator: Teachers are prepared to facilitate learning experiences that promote student agency, inquiry, and self-directed learning. Evidence includes candidates using technology to facilitate student-driven inquiry projects, personalized learning experiences, or collaborative problem-solving activities. ISTE

Educator Standard 7: Analyst: Teachers candidates develop skills to collect, analyze, and interpret data to inform their instructional practice. Evidence includes candidates using technology tools to gather and analyze student data, assess learning outcomes, and make data-driven instructional decisions. To use technology for data analysis and improve teaching and learning, the program:

- Utilize Data Collection Tools: Candidates learn to use technology tools such as learning management systems, assessment platforms, or data visualization tools to collect and organize student data.
- Analyze Learning Outcomes: Candidates are trained to analyze student achievement data, identify trends, and assess the effectiveness of instructional strategies using technology tools.
- Personalize Instruction: Candidates learn to use technology to differentiate instruction based on individual student needs and preferences, leveraging data insights to tailor learning experiences.
- Inform Instructional Decision-Making: Candidates use data to inform their instructional decision-making, identifying areas for improvement and adjusting teaching strategies accordingly.
- Monitor Progress: Technology is utilized to track student progress over time, providing timely feedback and interventions to support student learning.

Required courses such as Curriculum, Methods, Assessment, Differentiation, and Intro to Exceptionalities all address the above but all courses in the program reference the ISTE standards.

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

Sacred Heart University requires that candidates take course, Introduction to Exceptionalities, which focuses on the identification of students with exceptional needs as well as methods of meeting their educational needs in regular and special classroom settings. Exceptionalities studied include all areas identified by national and state mandates. Sacred Heart also requires that candidates take course, Culturally Sustaining Education, which is designed to foster understanding of diversity. Teacher candidates will reflect on their identities, inquire into the experience of others, and examine individual, interpersonal, institutional, and systemic barriers that limit educational opportunities and outcomes for many students. The course draws on history, policy, theory, and praxis to enable candidates to draw from students' cultural, religious, family, intellectual, and personal assets in strategies that effectively support all students' personal and academic success in a diverse society.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Please see response to 1a. description.

#### c. Effectively teach students who are limited English proficient.

Please see response to 1a. description.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Special Education Teacher Candidates are required to complete 2 Practicums as part of their program. The first Practicum placement focuses on serving students with high incidence disabilities while enabling the candidate to act as a collaborative co-teacher in a special education environment. Candidates participate fully in IEP development, monitoring, and planning, as well as attend IEP meetings. These experiences afford the opportunity to work with multidisciplinary team to meet the concerns and needs of children and youth with disabilities. Candidates also work on daily communication skills and collaborative techniques with families. The second Practicum placement focuses on serving students with low incidence disabilities. This placement involves practical training in and hands-on experience with special education and related services. These experiences afford the opportunity to work with a multidisciplinary team to meet the concerns and needs of children and youth with disabilities. Candidates also work on daily communication skills and collaborative techniques with families.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

Special Education Teacher Candidates participate in two, full-time, six-week practical training placements. These placements enable the Special Education Teacher Candidate to act as a collaborative co-teacher in a special education environment. Candidates participate fully in IEP development, monitoring, and planning, as well as attend IEP meetings. These experiences afford the opportunity to work with a multidisciplinary team to meet the concerns and needs of children and youth with disabilities. Candidates also work on daily communication skills and collaborative techniques with families leading to development of a parent engagement plan. The practicum supports candidates to address unit, state, and Council for Exceptional Children standards.

**c. Effectively teach students who are limited English proficient.**

Special Education Teacher Candidates are required to take Literacy of the Special Learner. This course is designed to prepare educators to improve the literacy achievement of students with or at-risk for significant reading difficulties or disabilities. This course focuses on literacy theory, explicit instruction and assessment in each of the five components of reading, and a framework for intensive intervention and data-based decision-making with diverse student populations. There will also be a focus on the development and educational needs of students with dyslexia or who experience other difficulties in acquiring the literacy skills of listening, speaking, reading, and writing.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Sacred Heart University's Farrington College of Education & Human Development received CAEP Accreditation in Fall 2018. The Isabelle Farrington College of Education & Human Development offers the Interdisciplinary Studies major which educates to the broad sweep of the humanities, social sciences and natural sciences. Together with other Sacred Heart University core requirements for the bachelor's degree, the major provides graduates with the necessary foundation for successful teaching of academic content in the elementary school. The Interdisciplinary Studies major is designed for students considering the Farrington College of Education & Human Development's Five-Year Program, in which students can earn their bachelor's degree and their Master of Arts in Teaching, along with initial teacher certification in the state of CT in elementary education. The major meets CT State Department Education regulations for the interdisciplinary major. The Interdisciplinary Studies major for aspiring elementary teachers is designed with the intention to provide candidates with a balanced set of courses in the arts and sciences—English, history, political science, geography, mathematics, biology, chemistry and physics—as well as the opportunity to explore one of the aforementioned areas in depth. Five-year program students who complete their certification in elementary education have the opportunity to become cross-endorsed in special education. Five-year students in all certification areas can also become cross-endorsed in computer science education. The Farrington College of Education & Human Development's graduate program leads to certification in Secondary Education (grades 7-12; Biology, Chemistry, English, General Science, Mathematics, Social Studies/History and Spanish) or Music (grades PK-12). Additionally, Sacred Heart University's Noyce Scholarship Program seeks to increase the number, quality, and effectiveness of elementary, secondary biology, and secondary mathematics teachers interested in teaching in high-needs school districts across the United States. The Noyce Scholarship program provides scholarships beginning with junior and senior years at Sacred Heart University, as well as funding to complete their Master of Arts in Teaching. Students will have opportunities to participate in specially designed seminars and courses to enhance their preparation as elementary, secondary biology, or secondary math teachers, as well as field experience specific to STEM education. Candidates will become trained to take their place in the exciting world of STEM education in conjunction with the cultural competence, pedagogical knowledge, and dispositions to be a successful teacher in a high needs school district.
