

Manuscript Guidelines

Components of the written final project are in manuscript format to encourage student dissemination of project results in a publication. Students may work with their Project Chair to identify a journal and may follow the author guidelines of the journal when writing the manuscript including formatting instructions. These students should also include the headings with asterisk below. Students who have not identified a journal should follow the format below.

- University signature pages*
- Title page*
- Acknowledgements*
- Abstract
- Introduction/background
- Problem statement
- Purpose of project
- Practice question
- Conceptual/theoretical framework
- Project design
 - Methods
 - Subjects
 - Setting
